# Frequently Asked Questions (FAQs)

---

## Is this website customizable in the future?

- Our ₹5,000 website is built using custom code (HTML, CSS, JS) to ensure fast speed and clean design.
- It's a static website, which means it's not editable from your side.
- However, if you ever want to update or change something later, you can contact us anytime. We'll do it for a small update fee.

## What if I want to make changes in the design or layout?

- The current layout is structured to suit 99% of local businesses — it's designed for clarity, trust, and lead generation.
- If you need any major design customization or layout change, we do offer that as a premium service. Feel free to ask, and we'll guide you.

### **Will you write the content, or do I have to give it?**

- You don't need to worry — our team will call you to understand your business, offerings, and goals.
- Then we'll write professional, SEO-ready content and send it to you for approval (in Word or PDF).
- Only after your approval, we proceed to build the website.

### **Who will provide the images for the website?**

- You can send us photos of your products, services, team, office/shop, etc.
- For the gallery section, we prefer using your real images — it builds trust.
- But if you don't have images, don't worry — we'll use high-quality, industry-relevant stock photos from Google.

### **Can I connect this website with WhatsApp or call button?**

- Yes, definitely!
- We'll integrate your WhatsApp, phone number, email, and Google Maps — so your customers can contact you directly in one click.

### **Will my website appear on Google?**

- Yes, we'll submit your site to Google after launch. Over time, it will start appearing for your business name or location-based searches.

### **Is this a one-time payment or yearly charge?**

- The ₹5,000 is a one-time website development fee. However, there will be a small yearly charge of ₹1,000 for hosting and maintenance, starting after the first year.
- For the first year, the total cost is just ₹5,000.

### **What is the delivery time after payment?**

- Once your content is finalized and approved, your website will be ready within 3 to 5 working days.
- We ensure timely delivery without compromising on design quality and mobile responsiveness.

## Will I get a domain name and hosting in this ₹5,000? —

- The ₹5,000 is only for website design and development. But don't worry —
- We provide a FREE subdomain like `www.YOURBUSINESSNAME.mycompanysite.in`
- If you want your own domain like `.com` or `.in` — we can guide you to purchase it from trusted platforms like GoDaddy, Hostinger, etc. (Usually costs ₹500–₹1,200/year)
- Don't want to do it yourself? We can buy and set it up for you — without any additional charges.

## Can I take payments from the website? —

- We don't integrate live payment gateways in this ₹5,000 website, but yes —
- We will add your UPI QR code so customers can take a screenshot and pay via any UPI app (Google Pay, PhonePe, Paytm, etc.)
- We can also display your bank account details for NEFT/IMPS transfers.
- This is a simple and cost-effective solution that works well for most local businesses.

### **Can I add this website link on my social media or Google profile?**

- Yes, and we encourage it!
- Once your website is live, you can share the link on Instagram, Facebook, WhatsApp, Google Maps, business cards, and more — it will build huge trust.

### **Will this website work on mobile?**

- Yes, 100%!
- Your website will be fully mobile-friendly and responsive, designed to work beautifully on smartphones, tablets, and desktops.

### **Can I have a video embedded on my website?**

- Yes, we can embed videos from platforms like YouTube or Vimeo. This feature can be included at an additional cost.

### **What is the payment process?**

- We follow a simple and transparent payment structure:
- 50% advance before starting the work
- 50% after the website is ready and approved by you
- This ensures mutual trust and smooth project flow.

### **Will my website be secure and protected from hackers?**

- Yes, we prioritize security by implementing standard measures. For enhanced protection, we recommend adding an SSL certificate, which is included for free with your domain.

### **Can I have multiple pages instead of a single-page website?**

- Our ₹5,000 package is designed as a single-page, multi-section website to ensure simplicity and cost-effectiveness. If you require a multi-page website, we can discuss your specific needs and provide a customized solution at an additional cost.

### **Can I add a blog or news section to my website?**

- The standard package does not include a blog section. If you wish to have one, we can discuss adding this feature at an additional cost.

### **Will my website be optimized for search engines (SEO)?**

- We implement basic SEO practices to help your website be more visible on search engines. For advanced SEO services, we offer separate packages tailored to your needs.

### **How will my website perform on slow internet connections?**

- We optimize our websites for performance to ensure they load efficiently, even on slower internet connections.

### **Can you help with creating a logo for my website?**

- Yes, we offer logo design services at an additional cost. A professional logo can enhance your brand identity.

### **Will my website have a contact form?**

- Yes, we include a contact form that allows visitors to send inquiries directly to your email, facilitating easy communication.

### **Can I showcase customer testimonials on my website?**

- Certainly! Including customer testimonials is a great way to build trust. We can add a section for testimonials on your website.

### What happens if I miss the annual renewal for my domain or hosting? —

- We will send you reminders before the renewal date. If a renewal is missed, there is a risk of service interruption, but we can assist in restoring services promptly.

### Is my website designed using my brand colours? —

- Yes, we design your website using your brand colours to maintain consistency and help strengthen your brand identity online.

***Hopefully, everything is clear!***  
***If not, feel free to contact us***

**Thank You,  
Boss!**
